Subject: CTDMPlus discussion and contour figure
Attachments: USGRW_Figure1_HillContours.pdf

Randy,

Thanks for the good conversation last week on CTDMPlus. As we discussed, attached you will find a graphical representation of the contours for the hills that we are investigating as part of the CTDMPlus modeling for USG Interiors – Red Wing facility.

The contours are based on 1/3 arc-second National Elevation Data downloaded from the MRLC consortium viewer (<https://www.mrlc.gov/viewerjs/>) as recommended in EPA guidance to execute terrain pre-processors.

Please take a look at the figure and let me know if you have any questions.

Thank you.

Jeff
